

About us

We are your modern service partner

... for your transportation needs to and from France. As our customer, you are the focus of our activities. We orient our customer service completely to your special jobs and requirements. In order to maintain our high level of flexibility, we have remained independent of large corporations.

Make use of our know-how and our experience from more than 33 years of transportation services in France. Just ask us and we will find solutions together!

1985 Founding of DEUFRANCE with headquarters in Leonberg

... since 1990 in the current company headquarters in Hochdorf. Early concentration of the company activities on product handling between France and Germany. Specialisation and consistent customer orientation.

Today we have a large base of satisfied direct customers. Through successful expansion and a continuously growing customer base, more than 90 subcontractors work for us permanently in the meantime. Today we can rightly say that in southern Germany we are one of the market leaders in transportation services for France. We are proud to be able to describe ourselves as an owner-managed, independent forwarding agency whose highest goals are:

- Satisfaction of our customers
- Continuous further expansion of our logistics company.

Once you succeed, it can be coincidence. If you succeed twice, it can be luck. If you succeed three times, it is diligence and efficiency.

French proverb
